Dear Hyun Kim:

I am pleased to inform you that Green Seal has reviewed the following Nae Woi Korea Ltd.'s concentrated formulas and determined that they meet the chemical and performance requirements of Green Seal's Standard for Specialty Cleaning Products for Industrial and Institutional Use (GS-53, Edition 2.8). As such, we confirm that products made using these formulas would comply with the requirements of GS-53, if packaged and labeled according to the standard:

Formula Name	Conditions for Compliance with the Standard	Green Seal Standard
NWK A-FV(H) NWK A-FV(A) NWK A-FV(G)	Concentrate must be diluted to 1:3 before being packaged for sale.	GS-53

This letter may be shown to Nae Woi Korea Ltd.'s customers and potential customers as confirmation that Green Seal has reviewed these formulas and found them to be compliant with the chemical-specific requirements of the GS-53 standard. Please note, however, that this formula verification is not to be construed as certification by Green Seal, and as such, the Green Seal Certification Mark may not be used to promote the verification.

This verification remains valid until such time as your formulas are no longer subject to a valid verification agreement or Green Seal has reason to believe, based on the results of our ongoing monitoring program or otherwise, that the formulations no longer comply with the chemical-specific requirements of GS-53.

Earning and maintaining Green Seal verification gives you access to a variety of exclusive resources to help you take full advantage of this valuable differentiator. Our Customer Success team provides custom-tailored marketing support and promotional assistance to drive demand and increase awareness of your verified products. Please contact customersuccess@green Seal.org to get started.

Thank you for your commitment to environmentally responsible products! We appreciate your partnership and look forward to our continued collaboration.

Sincerely,

Sara Risley
Vice President of Certification
